LOAN SPOTLIGHT

**Summary:** Borrower sought cash out and a lower interest rate on a stable income producing property that was undergoing interior renovations in several of the units. We were able to successfully arrange for an interest only loan to assist with the continued capital improvements and negotiated a shorter prepayment penalty in order to position the property for sale in 2-3 years. The subject property was also undergoing late stage well monitoring caused by an offsite leaking underground storage tank, but we diligently worked with the Regional Water Control Board's local case worker to ensure that the environmental engineer tasked with the responsibility of preparing the environmental report was provided with all of the pertinent information related to ongoing clean up efforts, and were able to secure a report satisfactory to the lender.
